**OFFICE: (323) 585-7321 NIGHT & EMERGENCY: (323) 585-0450**

June, 2015

TO: All Walnut Park Mutual Water Company Shareholders and Customers.

**EMERGENCY DROUGHT CONDITIONS**

In a letter sent to you in August, 2014 you were notified that the State of California Water Resources Control Board established the following four (4) Emergency Rules to be in effect until further notice. An additional rule was added on March 17, 2015.

1. Residents must not use a hose to wash down sidewalks and driveways.
2. Avoid excess runoff when watering lawns, flower beds and gardens.
3. When washing vehicles, use a hose with a shutoff nozzle.
4. Decorative fountains can no longer operate unless they are equipped to re-circulate the water.
- NEW** 5. Residents must not irrigate outdoors during and within 48 hours **RULE** following measurable rainfall.

The State is now imposing further conservation standards for all smaller water company's serving fewer than 3,000 connections. The Walnut Park Mutual Water Company falls into this category.

We will be required to achieve a 25% conservation standard (based on water usage in 2013) or restrict outdoor irrigation to no more than two (2) days per week.

We are asking our shareholders and customers to make the following changes to their outdoor irrigation practices in addition to the Emergency Rules stated above.

**1. Restrict outdoor irrigation to TWO (2) days per week, MONDAY and THURSDAY ONLY during the hours of 6:00 P.M. and 8:00 A.M. No watering will be allowed between the hours of 8:00 A.M. and 6:00 P.M.**

2. Adjust sprinklers to a maximum of a FOUR (4) minute cycle.

3. Do not allow excess run-off onto sidewalks, driveways or into gutters.

4. Repair all water leaks and report any leaks from water meters and fire hydrants to the water company staff as soon as possible.

Talk to your family and friends about ways to save water. If everyone saves a little, we will all benefit.

With your continued conservation, your community and your water company will do its part to get us all through these drought conditions.

Copies of the Drought Emergency Regulations are available for inspection at the office of the water company.

Finally, be vigilant. If you observe a water leak in the street, a leaking fire hydrant or excess water running in the gutters, notify your water company at the telephone numbers listed above.

Thank you for your cooperation.
